

Planning for Learning through Animals

This book takes you through six weeks of activities on the theme of animals. Each activity is linked to a specific Early Learning Goal, and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting. This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children's topic, as well as ideas for bringing the six weeks of learning together. The weekly themes in this book include: name the animals, hide and seek, where I live, farm animals, pets and animal babies.
